

The Messages app on your iPhone is a convenient way to share media with friends and family. However, it accumulates a large number of photos and videos, taking up valuable storage space on your device. If you also face this situation, don't worry! Here, I will share how I delete pictures and videos from my text messages on my iPhone.

- [How to delete individual pictures and videos in Messages on iPhone](#)
- [How to delete multiple photos and videos in iMessage on iPhone](#)
- [How to delete a photo from Message instantly on iPhone](#)

How to delete individual pictures and videos in Messages on iPhone

1. Open the **chat** in Messages.
2. Select the **contact's name**.

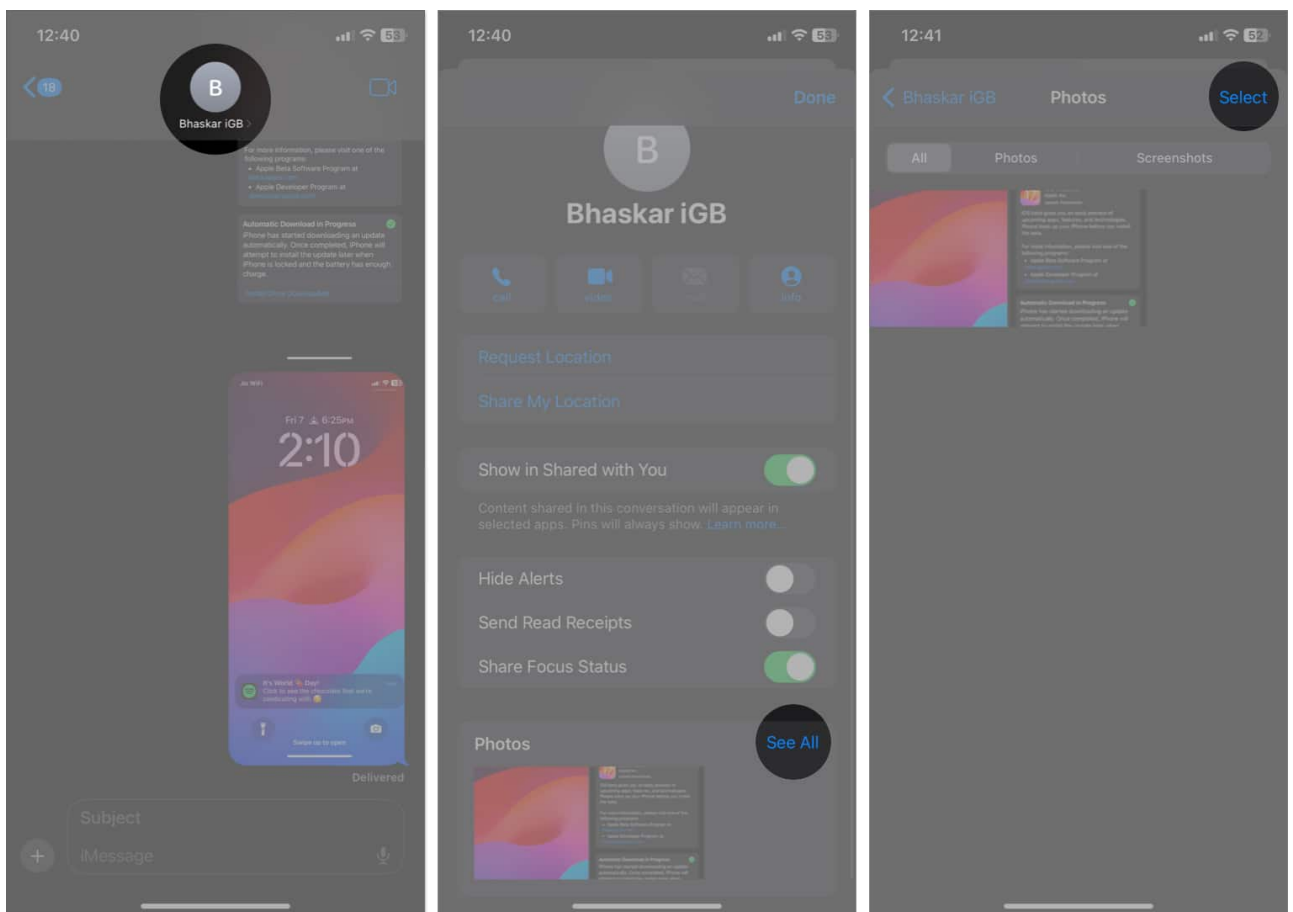

3. Tap and hold the **image** attachment.
4. Hit **Delete** → **Delete Attachment**.
5. Tap **Done**.

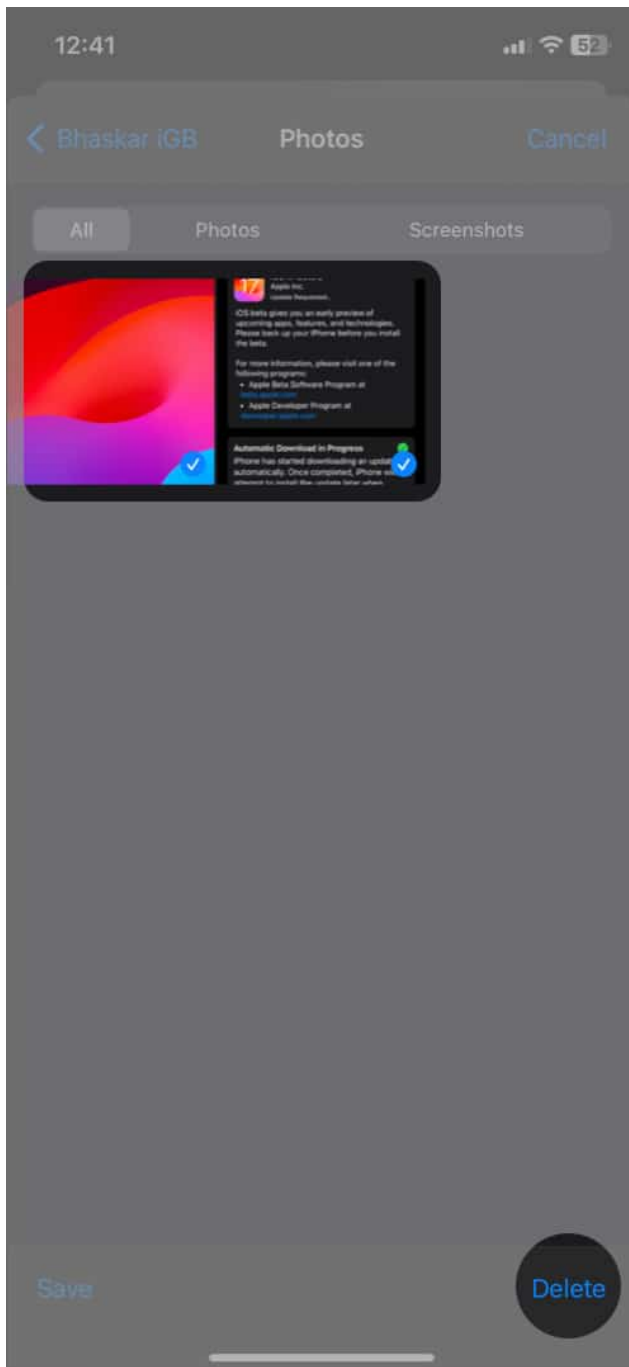

This trick works best to delete older photos and videos from text messages rather than scrolling through the gallery or inbox. You may also delete multiple pictures together from text messages on your iPhone, saving you time and effort.

How to delete multiple photos and videos in iMessage on iPhone

1. Go to the **chat** in Messages → Select the **contact's name**.
2. Under the **Photos** section, tap **See All**.
You will find all the images and videos you sent or received here.
3. Hit **Select**.

4. Choose the **photos** and **videos**.
5. Tap **Delete** → **Delete Attachments**.

Tip: You may also [use the Smart Search filter](#) to list all the photos received in iMessages and delete them altogether.

How to delete a photo from Message instantly on iPhone

You may quickly delete received pictures and videos from text messages on your iPhone directly from the chat.

1. Open **Messages** and go to the **chat**.
2. Tap and hold the **image**.
3. Select **More**.
Now, you may choose multiple pictures and videos.
4. Tap the **bin icon** → **Delete Message**.

No more cluttered inboxes!

Deleting photos and videos from the Messages app on your iPhone is a simple and effective

way to free up storage space and keep your conversations organized, ensuring a smooth and efficient messaging experience. Following the steps above, you can easily remove individual media files or delete multiple photos and videos simultaneously.

If you face any issues, leave a comment below. I will surely check and provide solutions.

FAQs

Can you unsend videos on Message on iPhone?

No, you can only undo sending text messages within two minutes of delivery on iMessage.

When you delete an iMessage, does it delete for the other person?

Deleting an iMessage only reflects on your side. It doesn't remove the text for the recipient.

Can't delete a picture from the text message; why?

If you can't delete pictures on Messages in bulk, try to delete each individually. However, if it doesn't work, restart your iPhone to wipe out any system glitches.
