

Get ready to deck up your Mac screen! With the release of macOS Sequoia 15, Apple has introduced new wallpapers for the Mac. These official wallpapers showcase the new theme for the macOS 15, ensuring your screen pops.

We've gathered the macOS 15 Sequoia wallpapers, available for download in 4K resolution. Click the Download button below to use the official macOS 15 wallpapers on your Mac.

Download macOS Sequoia wallpapers

The official macOS 15 wallpaper is inspired by the Sequoia forest. The dynamic wallpaper features a visual contrast of warm and cool tones, reminiscent of the [dynamic island wallpapers on the iPhone](#). Additionally, it showcases a radiant sunburst effect that transitions from a glowing orange to a deep blue. This wallpaper is available for download in 4K quality and will make your Mac screen vibrant.

Download the ‘Sequoia Sunrise’ wallpaper

If you love vibrant nature wallpaper, we have covered it, too. With macOS Sequoia beta 5, Apple has included a Sequoia national park image as wallpaper. So, you can have a change of taste and replace the previous abstract Sequoia wallpaper with a real one. This one beautifully displays the serene beauty of the Sequoia forest at sunrise.

Not satisfied only with one static wallpaper? You can also set this “Sequoia Sunrise” as your Mac’s lock screen screensaver. It will show Sequoia National Park in real-time aerial mode. Pretty interesting, right?

However, if you have not updated macOS Sequoia yet, you can still enjoy the nature view by downloading the wallpaper here!

Aside from new wallpapers, Apple has also added a bunch of [exciting features to macOS Sequoia](#) like Apple Intelligence, iPhone Mirroring, a new Passwords app, [live audio transcription](#), and much more. While macOS Sequoia will roll out to the public later this fall, you may [install macOS Sequoia developer beta on your Mac](#) today to experience these new features. Do note, however, that developer betas are ridden with bugs and performance issues, so it isn't wise to install them on your main machine.
