Why are you getting Google Calendar spam invites?

Google Calendar may be an annoyance if it is constantly flooded with spam invitations from strangers. It's may be you have subscribed to a service unintentionally. As a result, your calendar gets clogged with unsolicited reminders, invites, and events from spam sources.

Moreover, you must avoid these spam events as they might contain malicious scripts, malware, or can be phishing links. However, you can always use <u>antivirus software to</u> <u>prevent your iPhone, iPad</u>, or <u>Mac</u>. Else can scroll down to learn the steps on how to block Google Calendar spam.

How to block Google Calendar spam using browser

You can quickly stop Google Calendar spam invites by altering the settings on the calendar website. The steps remain similar regardless of your device, whether it be iOS, iPadOS or macOS. I suggest using Desktop view on your iPhone for smooth navigation.

- 1. Launch any **browser**.
 - I'm using Google Chrome.
- 2. Head to **<u>Google Calendar</u>**.
- 3. Sign in with your **email** and **password** if prompted.
- 4. Click the **Settings gear icon** \rightarrow Select **Settings**.
