How to change your chat wallpaper on WhatsApp for

iPhone

Changing your WhatsApp chat wallpaper on an iPhone is a quick and easy process. You can either choose from the pre-designed wallpapers provided by WhatsApp or use your own images.

Change WhatsApp wallpaper for all chats

If you want to change the background wallpaper for all your WhatsApp chats on an iPhone, follow these steps:

1. Open **WhatsApp** on your iPhone.
2. Tap on **Settings** at the bottom.
3. Select **Chats**.

4. Select **Chat Wallpaper**, then hit **Choose a New Wallpaper** on the following screen.
5. Here you can see WhatsApp's wallpaper libraries. Choose one based on your preference:
 - **Bright:** Vibrant wallpapers of beautiful landscapes and themes.
 - **Dark:** If you love black wallpaper, you will love this library.
 - **Solid Colors:** For minimalists, WhatsApp provides solid color wallpapers.

- **Photos:** You may choose images from your camera roll to set as wallpaper.

6. Browse through the available options and select the one you like.
7. Adjust the image as needed and tap **Set** to apply it.

While setting the wallpaper, you will see a label at the bottom stating **Wallpaper Motion: On**. This means WhatsApp has added a parallax effect to the chat wallpaper, meaning it moves the wallpaper in response to the movements you are making on your phone. For instance, if you tilt the phone left, the wallpaper will appear to move to the left.

If you don't want to have the motion effect, tap the motion button (with a phone icon) in the middle, and it will turn it off. You can then proceed to set the wallpaper.

Similarly, the solid color wallpapers have the default WhatsApp doodle. If you want to have a cleaner look, tap the effect button in the middle before applying the wallpaper.

5. Then tap **Choose a New Wallpaper**.
6. Pick a wallpaper from the wallpaper library, Photos, or use a solid color.
7. Once you've selected and adjusted the image, tap **Set** to apply it to that specific chat.
