- 1. Open the **tab switcher** screen in Safari.
- 2. Tap the top of the screen to reveal the **search bar**.
- 3. **Type a word** you think would be common on all the tabs you want to close, and you'll see all the open tabs that match this word.
- 4. Long-press the word **Cancel** and tap **Close [number] Tabs Matching "search-word".**

# How to close all Safari tabs on iPhone with Tab Groups

<u>Tab Groups is a Safari feature</u> that lets you keep your tabs organized using folders. If you've used it to keep all similar tabs organized in one Tab Group, deleting that Tab Group will close all open tabs inside it. Here's how:

- 1. Go to the tab switcher screen in Safari.
- 2. Long-press one of the tab thumbnails.
- 3. Tap Close Other Tabs. Except for this tab, all others will close.

#### Signing off...

That's it. The above methods should help you declutter Safari on your iPhone or iPad and give you a clean slate to start fresh.

Moving forward, be sure to use Tab Groups or <u>profiles in Safari</u> to keep your tabs organized and avoid having an overcrowded stack of tabs again.
