## How to create a new Apple ID on iPhone and iPad

Before diving into the process, remember a few key considerations. If you're [setting up your iPhone or iPad for the first time](#), following the steps as they appear during startup is advisable. However, if you've already set up your device and must create a new Apple ID, let's proceed.

1. Launch **Settings** → Tap **Sign in to your iPhone**.
2. Choose **Forgot password or don't have an Apple ID?**
3. Select **Create Apple ID** when prompted.

4. Now, enter your **name** and **date of birth** → Tap **Continue**.
5. Select a **verification factor** most feasible to you.  
*I have opted for an **email** address.*
6. Verify the **email** you seek to use your Apple ID → Tap **Continue**.

7. Verify the **email** and tap **Create Email Address**.
8. As your Apple ID is processed, create a strong [password](#).  
*Ensure the password is a unique mixture of 8 characters, a number, an uppercase, and a lowercase letter.*
9. Enter the **password** again for verification → Hit **Continue**.
10. Fill in your **phone number** in the respective text box.
11. Pick a **method** for verification → Tap **Continue**.

12. Use the **OTP** to prove your authority → Hit **Next**.
13. Hover through the Terms & Conditions, then tap **Agree** to proceed.
14. Enter the **passcode** of your device to conclude the process.

You can also go to the App Store to create a new Apple ID and follow the steps mentioned above.

## How to create a new Apple ID on Mac

If you're a new Mac user and setting it up, follow the steps reflected on your screen to get your device up and running. However, if you are in need of signing in with a new Apple ID and are aware of the tweaks and turns of your device, the guide outlined below can get you started.

1. Navigate to the **Apple logo** (🍏) and access **System Settings**.

2. Click **Sign In** → **Don't Have an Account**.

3. Fill in your **date of birth** and press **Next**.

4. In this instance, enter your **details** as asked.
5. Click **Next** to proceed.

6. Enter your **phone number** and choose a **verification method**.

7. Click **Next**.

8. As **OTP** verifies successfully, you'll be alerted to the Terms and Conditions.

9. To give Apple your consent, tick the **check box** and click **Agree**.

10. Enter the **password** of your device if prompted.

## How to create a new Apple ID on Web

If you don't have an iPhone or other Apple devices and still want to create a new Apple ID, use this method below:

1. Access the official [Apple ID](#) website on a browser of your preference.
2. Click **Create Your Apple ID** option from the menu.

3. Enter your **personal details** with respect to the allocated section.
4. Now, create a **strong password** that fulfills every requirement.

## FAQs

### **What are the age requirements for creating a new Apple ID?**

The age requirements for creating an Apple ID vary by country or region. In some regions, you need to be at least 13 years old to create an Apple ID, while in others, the minimum age may be higher.

### **Can I change the email address linked to my Apple ID after creating it?**

Yes, you can [change the email](#) address associated with your Apple ID after creating it.

### **Can I create a new Apple ID without providing credit card information?**

If you're signing up via iTunes for the first time, you may get notified to bind your credit card and billing information to the account. However, it's not compulsory. You can simply skip this step and create an Apple ID without a credit card.

### **Can I create multiple Apple IDs using the same email address?**

No, a unique email address can carry only one Apple ID associated with it. If you need multiple Apple IDs, you will need to use different email addresses for each account.

### **Why I can't create a new Apple ID on my iPhone?**

Apple lets you create a maximum of three Apple IDs on a single device. So, if you have exceeded the limit, you can't create a new Apple ID.
