How to Reset Theme in Apple Books

If you want to revert the customization to the default settings of the book's app, you need to follow the steps below.

- 1. Open Books app \rightarrow Menu \rightarrow Themes & Settings \rightarrow Options.
- 2. Scroll down and tap the **Reset Theme** button.
- 3. Then when a dialogue box pops up, choose **Reset**.
- 4. Tap Done.

How to customize Books app on an older version of iPadOS or iOS

You may alter the discussed settings even if you're using an earlier version of iOS or iPadOS.

Just for easier access, Apple has now grouped them together into Themes on the older versions. As a result, you may now easily adjust an available theme and preserve its settings rather than manually modifying several options such as font, background color, line spacing, etc.

Winding up...

I hope these customizations in Themes & Settings enhance your reading experience. In the comments section, feel free to let us know if you have any difficulties adjusting any of the features in the Books app on iPad and iPhone. I'll make sure to respond as soon as possible.
