

Netflix profiles allow you to share a Netflix account with multiple people. Each profile holder has their own personalized viewing experience with custom recommendations. You can have up to 5 user profiles in a single account, and you can even lock a profile with a PIN for privacy.

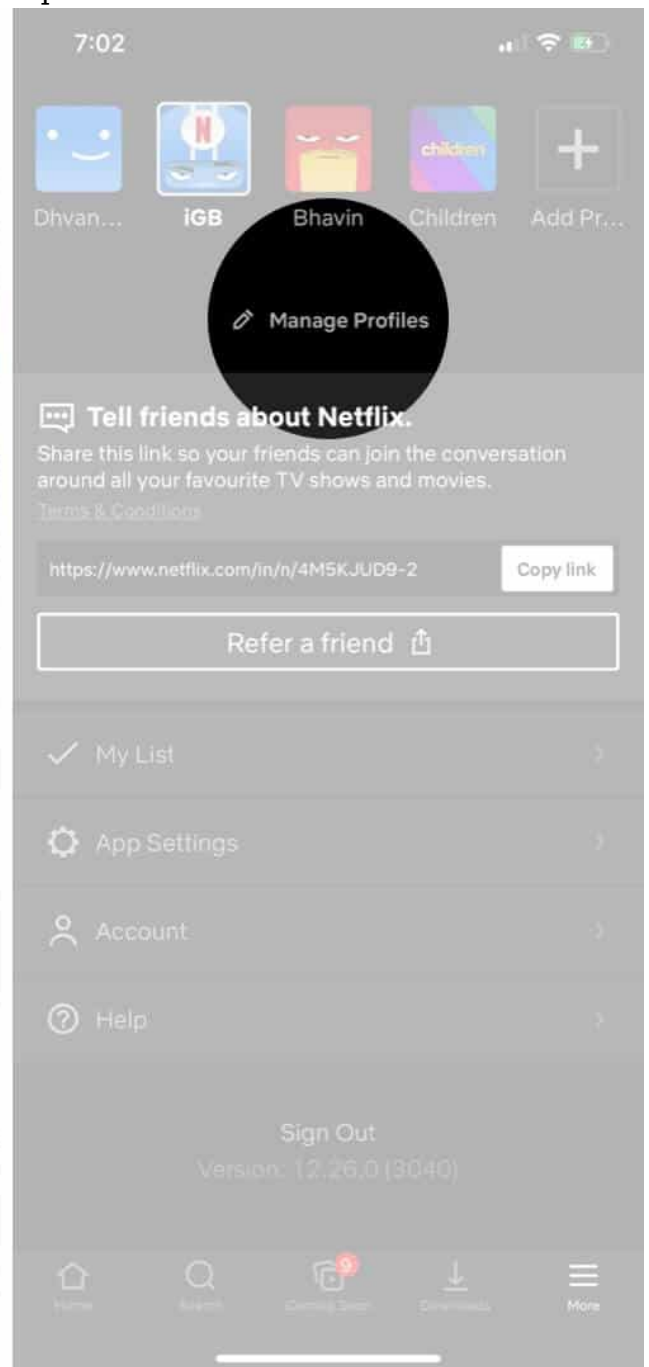

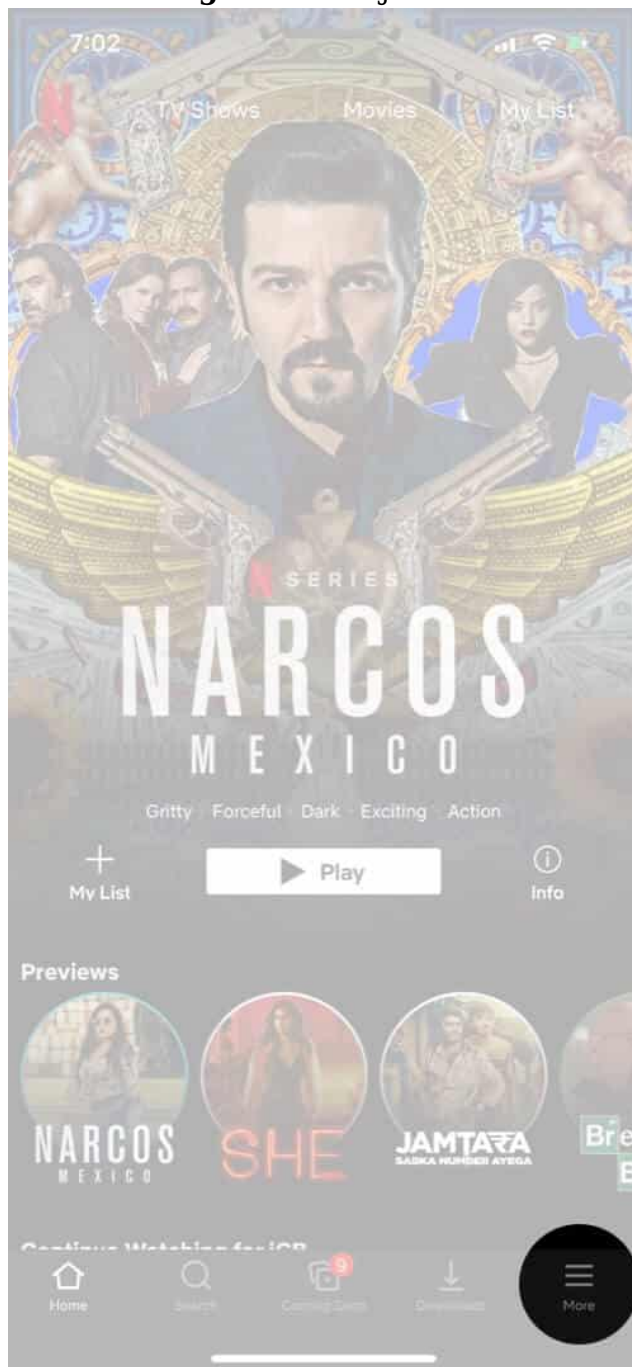

It's also possible to permanently delete a Netflix profile on your iPhone, iPad, and Mac whenever you wish. Doing this will erase the viewing history of the profile. Moreover, removing it from one device will eliminate it from all of your devices. Here's how to go about it.
