Password protection is a great feature to prevent your PDF documents from unwanted people. However, if you receive plenty of PDF files daily, it can be a curse. Remembering a wealth of passwords and accessing those encrypted documents can be daunting. However, you can remove password protection from PDF files!

This blog will show you a quick and effective way to do that using your Mac! Keep reading to learn more.

Note: You can also remove password protection from PDF files using your iPhone. Check out our explainer to find out more.

Mac generally opens all PDF files in Preview by default. Hence, this is the simplest way to remove the PDF password on Mac. Here's how you can do it.

How to remove PDF password on Mac using Preview

- 1. Open the file with **Preview**.
- 2. Enter the **password**.

6. Now, click Save.

You can now access it without the password. You can also find the old encrypted file in your local drive or docs.

How to remove PDF password on Mac using a web browser

For all those who love using Google Chrome or Safari, there is a pretty solid way to remove your PDF password on Mac using the same. Here's how:

- 1. Right-click your PDF file \rightarrow **Open With** \rightarrow **Google Chrome or Safari.**
- 2. Enter the **password** to unlock the file.
- 3. Press **Command + P** to open the print dialog box.
- 4. In *Google Chrome*, Click **Save**.
 - In *Safari*, select **Save as PDF** in the drop-down menu.

igeeksbl^{_}G

5. **Save** the file with a new file name.

You can now access this file without the password. It will be saved locally on your device.

Remove PDF password on Mac using third-party apps

If you want to edit or <u>merge two or more PDFs</u> after removing the password, then it's wiser to depend on a third-party app. And if you want a host of amazing editing features without the hassle of downloading an app, then you should go for pdfFiller.

It is a cloud-based, <u>all-in-one PDF editing software</u> that'll do the job in seconds and help you add/delete text, sign, spell check, and more. And here's how you can remove passwords from PDF with pdfFiller.

- 1. Go to <u>pdfFiller.com</u> and click **Select From Device**.
- 2. Open the password-protected file.
- 3. Enter the password and hit **Submit**.

iGEEKSBL^QG

- 4. Make some changes if you want.
- 5. Click Done.
