How to share FaceTime link to schedule calls on iPhone, iPad, and Mac

The techniques for scheduling a FaceTime call are insanely convenient. But wait until I tell you about the next one. Did you know you can organize a FaceTime call and share the link to it? The receiver can then use this link to jump on the call as many times as possible at a fitting time.

On iPhone and iPad

- 1. Open FaceTime on your device.
- 2. Tap Create Link.
- 3. Share the same via any medium that is feasible to you.

On Mac

1. Launch **FaceTime** \rightarrow Click **Create Link**.

2. You'll be prompted with a list of options you can use to share the link with the significant user.

Note: This link can only be terminated by the owner and is set to last indefinitely. Hence you can use it over and over again if you desire.

Wrapping up

Gone are the days when you had to set up or organize a call with seconds on the clock. This guide can help you to schedule a FaceTime call on your Apple device.
