How to sync Google Calendar with iPhone Calendar app

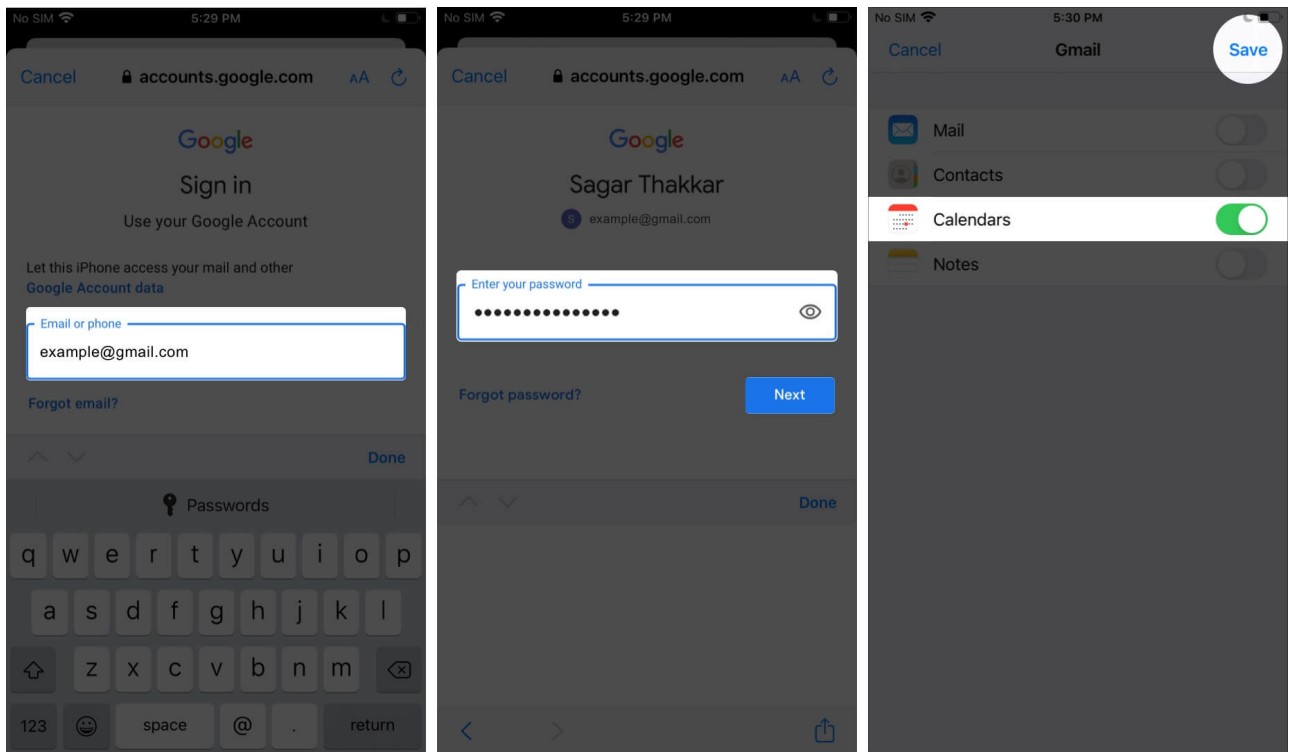

1. Open the **Settings** app, tap on **Mail**. Now tap on **Accounts**.

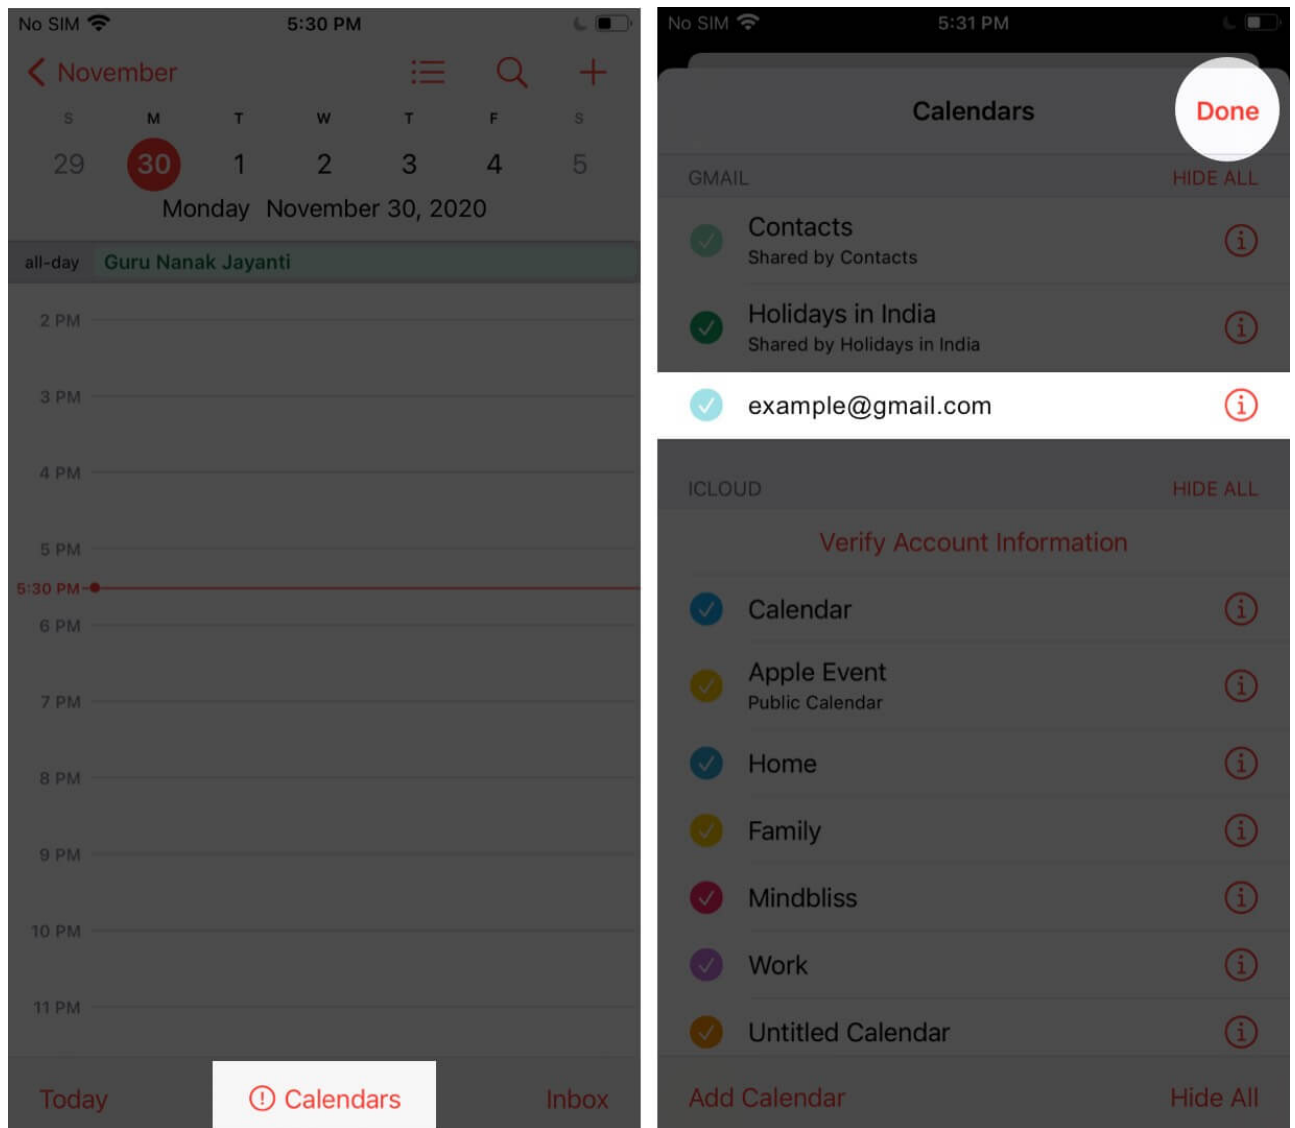

2. Tap on **Add Account** and select **Google**.

3. Now enter your **ID and Password**.
4. Turn the **toggle on** for **Google Calendars** in the new window and tap on **Save**. The calendars will take some time to sync.

5. Now open the **Calendar** app and tap on **Calendars** located at the bottom of the page to view all the calendars linked with your Gmail account.
6. Now select the **calendars** you want to have in your iOS Calendar app and tap on **Done**.

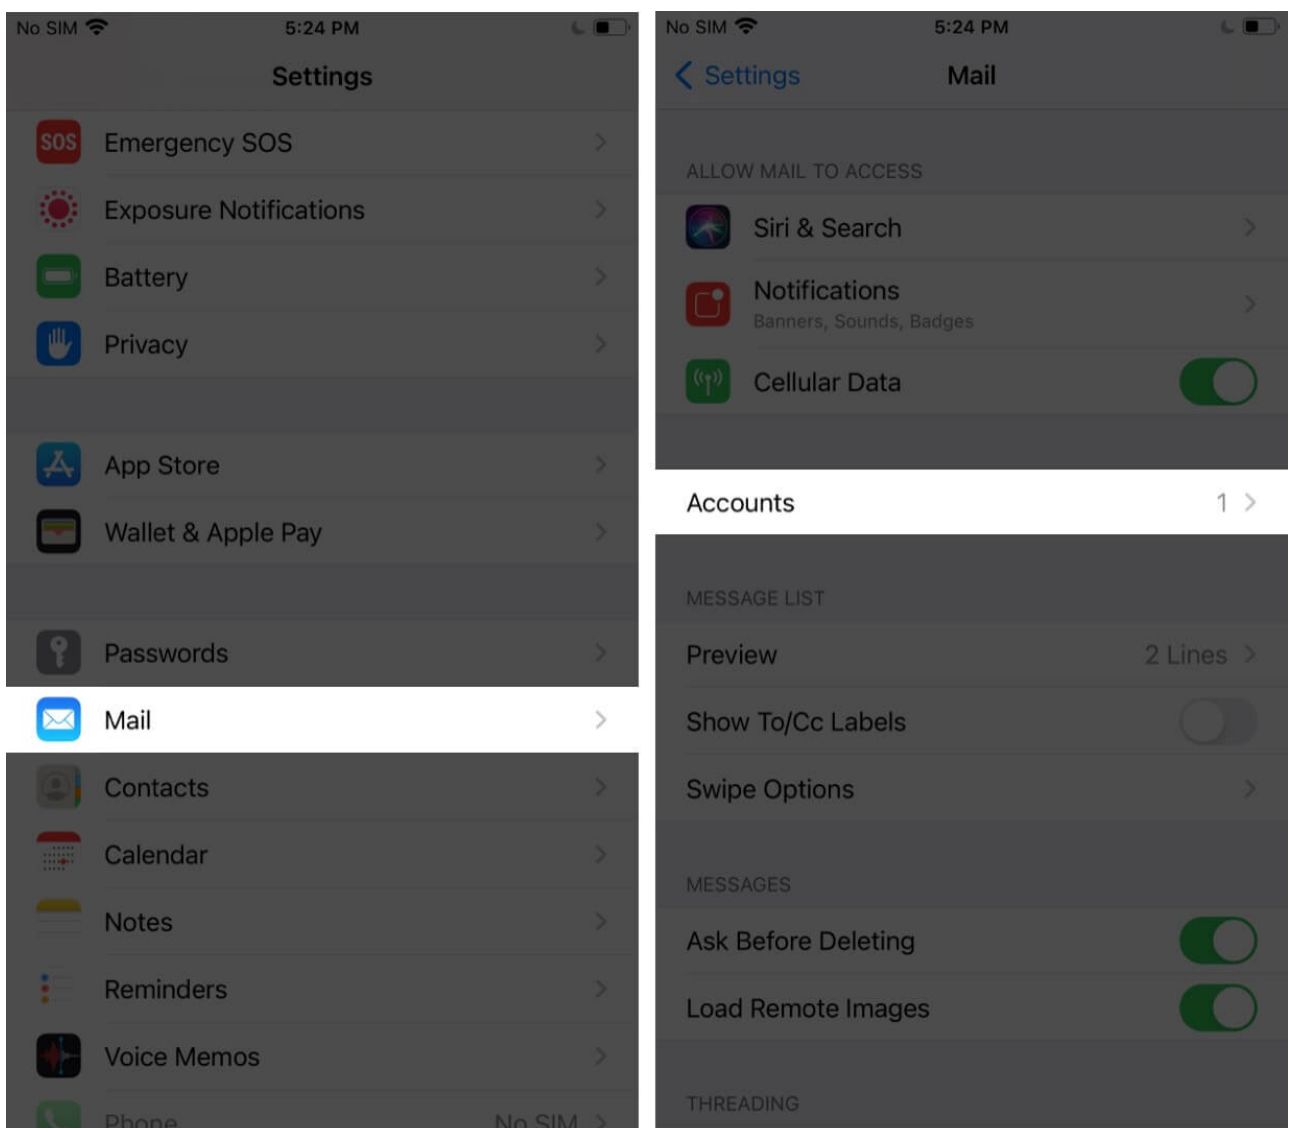

Can you sync multiple Google accounts with iPhone Calendar?

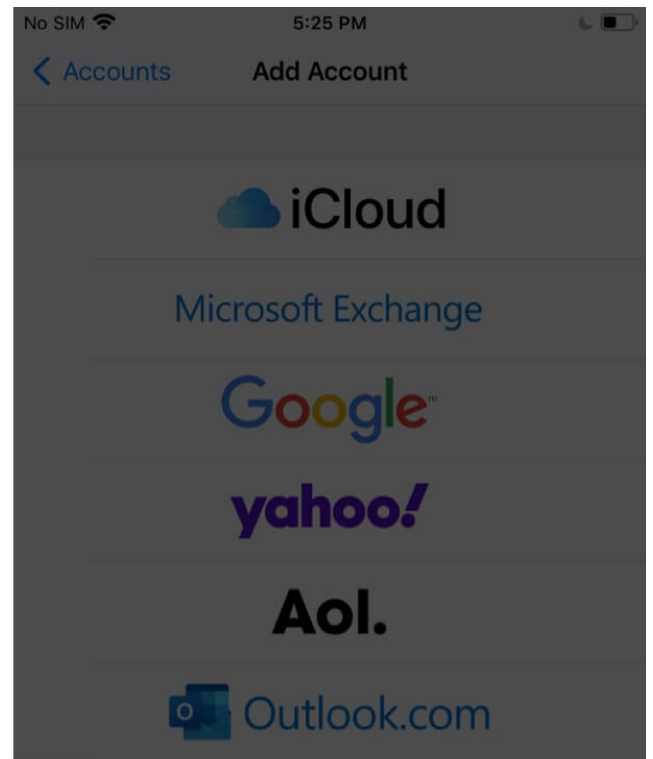

The answer's **YES!!** You can sync as [many Google accounts](#) with your iPhone Calendar as you want. You have to follow the same process to add your account and eventually sync the calendar.

How to sync other people's Google Calendars to your iPhone

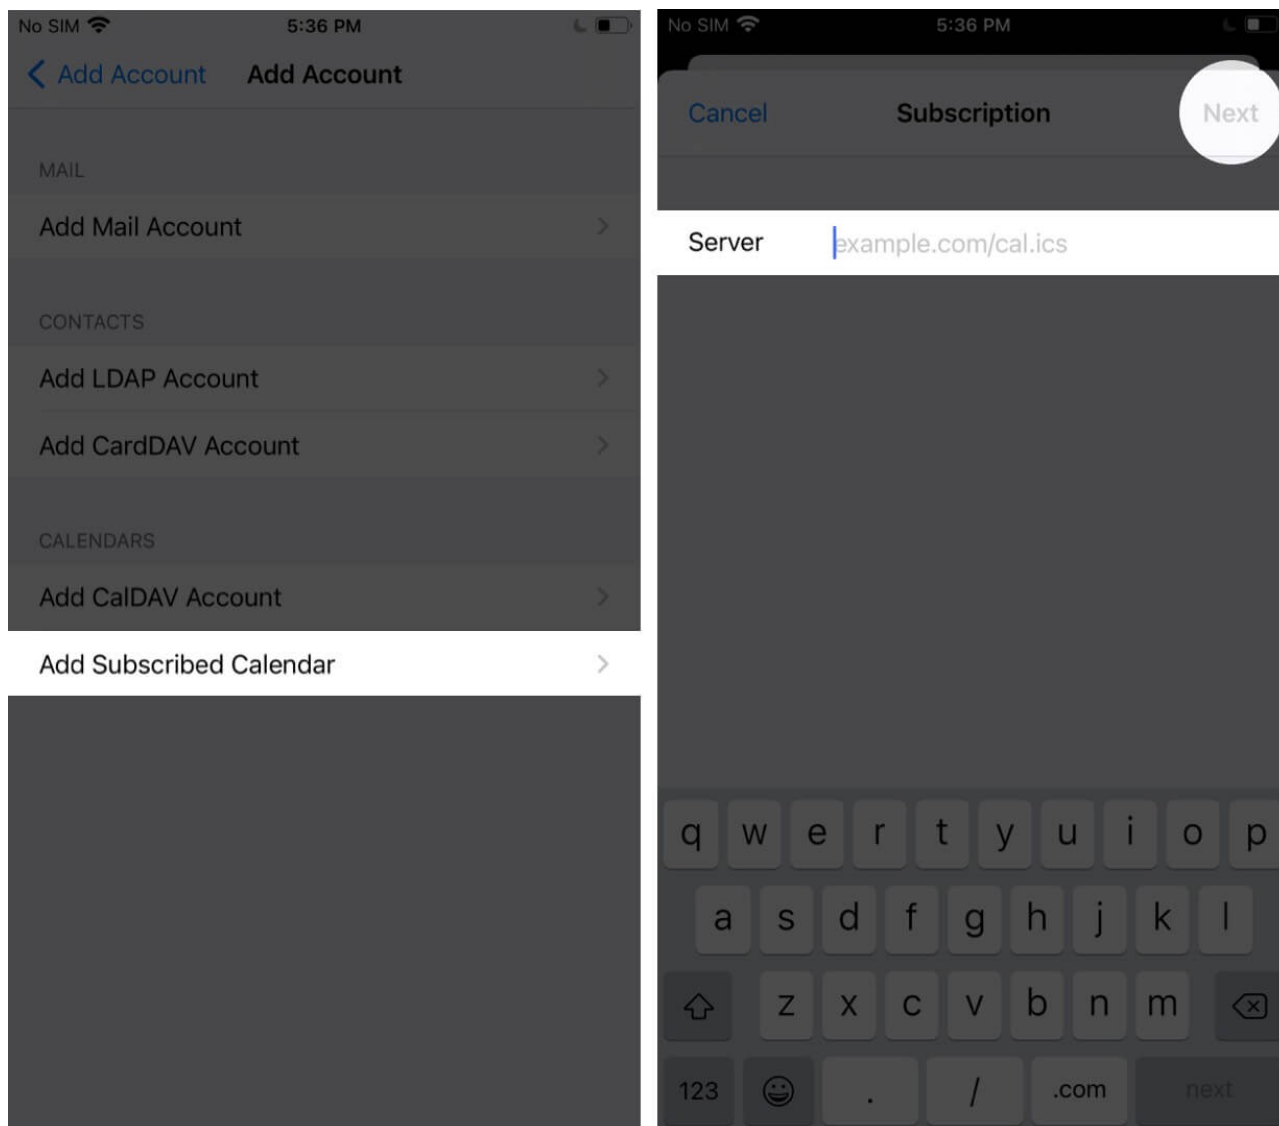

1. To begin with, you'll need the ICAL link of the calendar you want to sync. Keep it handy.
2. In the **Settings** App, tap on **Mail** followed by **Accounts**.

3. Tap on **Add Account** and select option of **Other**.

4. Now choose the option to **'Add subscribed calendar'** and fill in the ICAL Url you have. Now tap on **Next**.

5. You can now view your added calendar in the list with other subscribed calendars in the App.

Fix sync problems with Google Calendar app

Finding it challenging to sync your Google calendar with iPhone? Nothing to worry about. There may be few reasons behind this issue, and some quick troubleshooting tips can be of great help. Don't miss to have a look at [our guide](#).
