How to sync Safari bookmarks with iCloud on iPhone and iPad

1. Open the **Settings** app on your iPhone or iPad.
2. Select your **Apple ID**.
Be sure to use the same Apple ID as the other devices you're syncing.
3. Choose **iCloud** → Tap **Show All** below Apps Using iCloud.
4. Toggle on **Safari**.

5. Use the arrows on the top left to exit and return to the main Settings screen, and then close the app.

That's it! Syncing your Safari bookmarks is as easy as turning on the option in your iCloud settings. By taking this step, you can easily access your bookmarked sites on your iPhone and iPad with a tap.

How to sync Safari bookmarks with iCloud on Mac

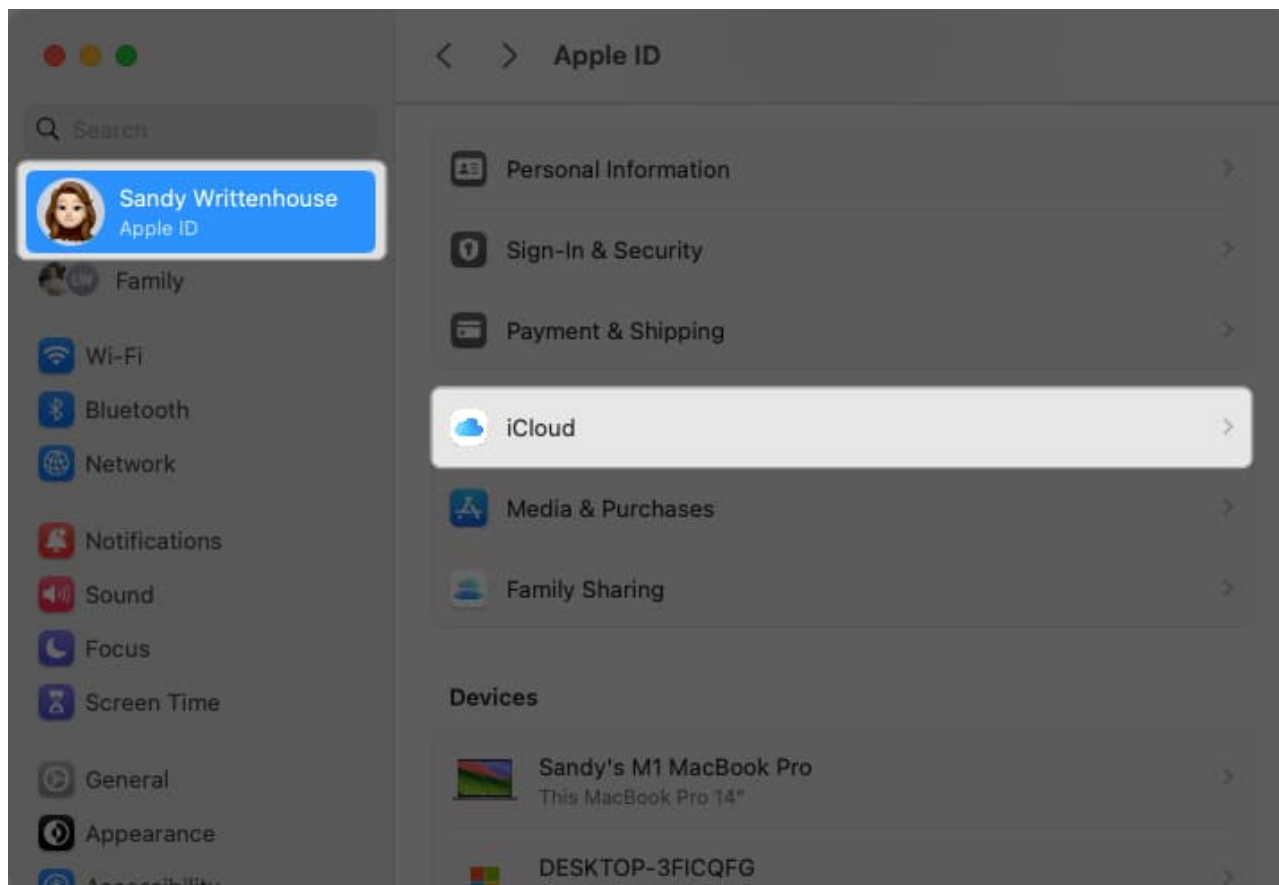

Along with enabling bookmarks for Safari in iCloud on your mobile device, you can do the same on macOS.

This way, you can sync Safari bookmarks from Mac to iPhone and vice-versa.

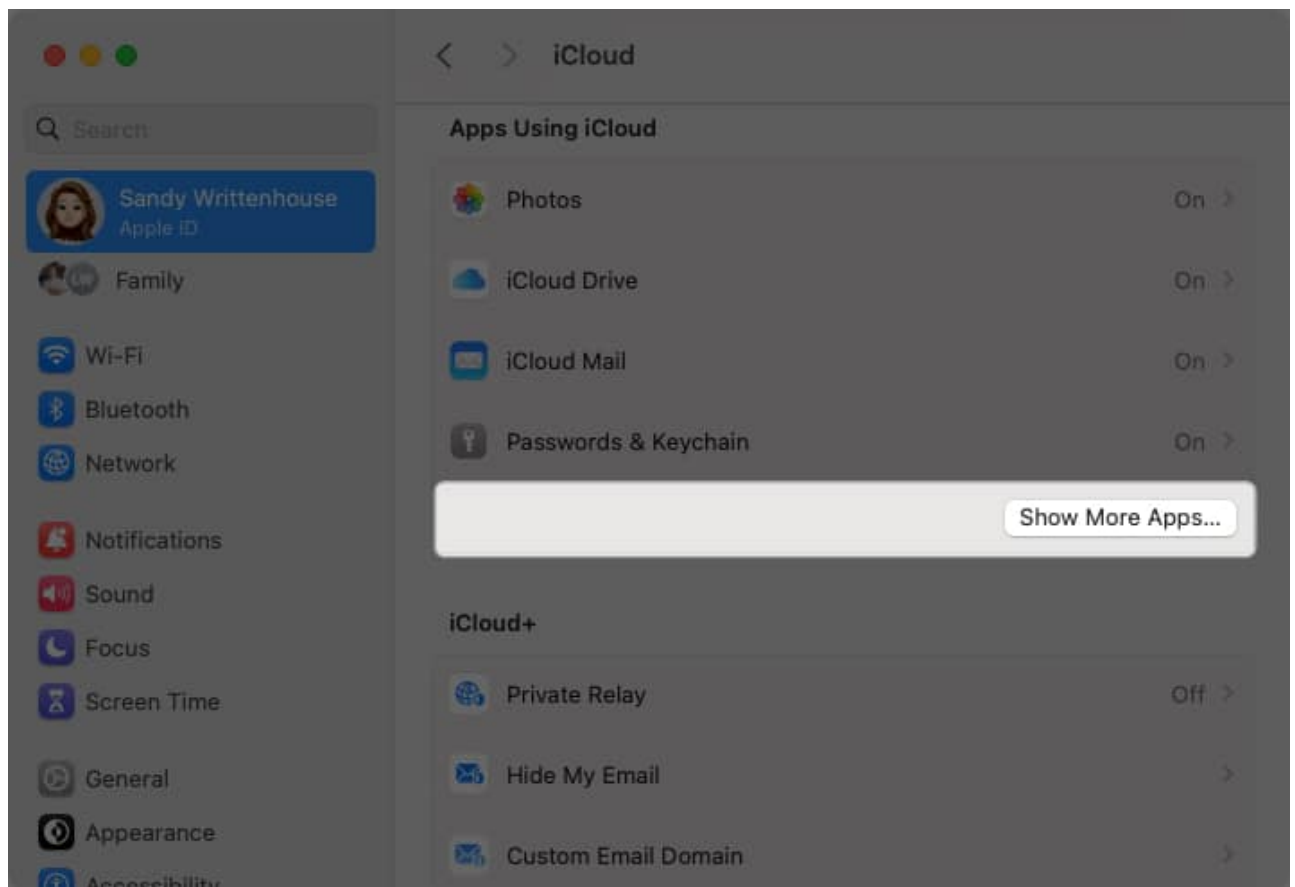

1. Open your **System Settings** using the icon in your Dock or Apple icon in the menu bar.
2. Select your **Apple ID** on the left.

Again, use the same Apple ID as your other Apple devices.

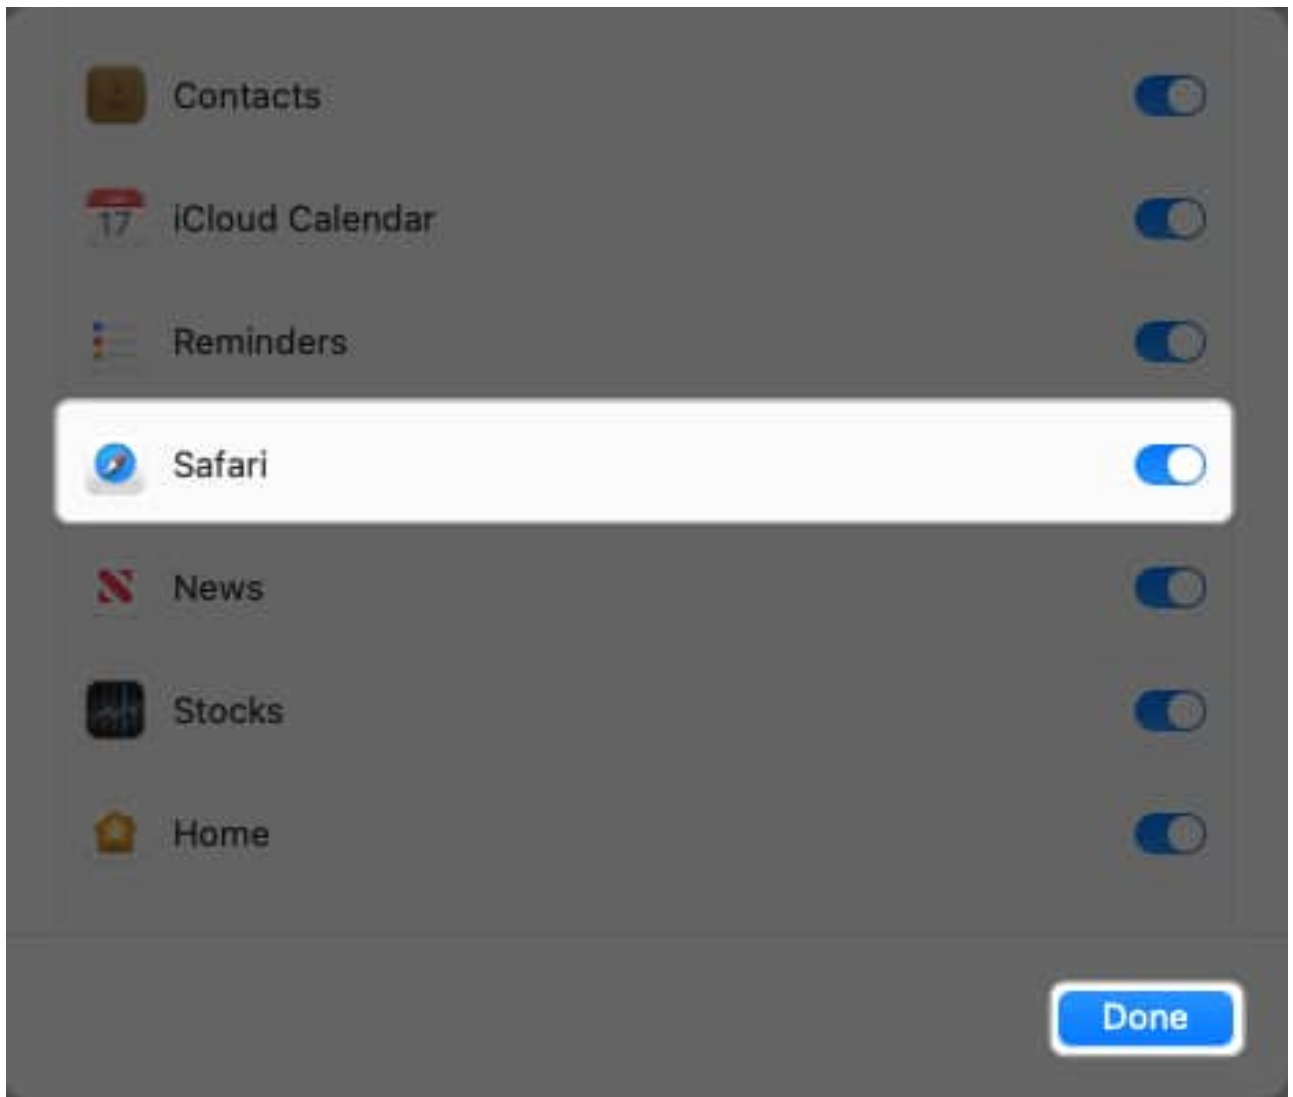

3. Choose **iCloud** on the right.

4. Then click **Show More Apps** below Apps Using iCloud.

5. Toggle on **Safari** → Click **Done**.

You can use the arrows on the top left to exit or simply close your System Settings.
