Turning on Screen Time can seamlessly keep track of how much time you spend on your device. Moreover, you can also seamlessly restrict explicit content and <u>social media</u> <u>apps</u>. Further, you can also manage your child's device to regulate how they use it. So let's take a closer look at these features.

# How to turn on Screen Time on iPhone

- 1. Open Settings.
- 2. Tap Screen Time.

3. Tap Turn On Screen Time → Continue → This is My iPhone.

Now, you will get a weekly report with insights about your screen time. However, this is not all. Screen Time has several features. Keep reading!

# Set a Screen Time passcode

You can set a Screen Time passcode to ensure you're the only one who can extend time or make changes. Follow these steps to set a Screen Time passcode on your iPhone.

- 1. Tap Turn ON Screen Time. (using the above steps)
- 2. Tap Use Screen Time Passcode.
- 3. Enter the **passcode** and confirm it.

*Note*: In case you forgot your Screen Time passcode, update your device to the latest iOS or iPadOS. Now, reset the passcode.

# How to turn on Downtime on iPhone

If you are planning to cut down on your or your child's time, you can turn on Downtime to shut down the device at a particular time. Moreover, you can also customize it for particular days.

- 1. Turn on **Screen Time**.
- 2. Tap **Downtime** and enter the passcode.

Block at Downtime				
Turn on to block the device at downtime.				

During Downtime, only phone calls and the apps you choose to allow will be available. Go back and tap **Always Allowed**. From here, you may choose to always allow an app.

The last option, **Block at Downtime**, means that your child will have to send a request to extend the allowed time when the downtime limit is reached. If this is your phone, you may enter the Screen Time passcode and continue using the app.

### Set daily time limits for App Categories with App Limits

- 1. Inside Screen Time, tap App Limits.
- 2. Tap Add Limit.

- 3. Select an **appropriate app category**  $\rightarrow$  tap **Next.**
- 4. Set a **time limit**  $\rightarrow$  tap **Add**. You may also customize days.

**Block at End of Limit** means the app will be unusable after the time limit is reached. However, there is an option to **Ask For More Time.** 

All app limits reset every day at midnight.

**To Delete an App Limit:** Swipe right to left of the app from the App Limits screen and tap **Delete**. Enter the Screen Time Passcode and tap **Delete Limit**.

# How to set daily time limits for specific apps with App Limits

- 1. Inside Screen Time, tap App Limits.
- 2. Tap **Add Limit**  $\rightarrow$  enter your Screen Time password if asked.

- 3. Tap the **arrow** next to an app category to choose the app. You can also choose multiple apps from different app categories by doing the same.
- 4. Tap **Next.**
- 5. Set a **time limit** and tap **Add**.

# Set daily time limits for websites with App Limits

- 1. Inside Screen Time, tap App Limits.
- 2. Tap **Add Limit**  $\rightarrow$  enter your Screen Time password if asked.

- 3. From the end, tap **Websites.**
- 4. Tap **Add Website** and type in the URL  $\rightarrow$  tap **Next.**

5. Set time limit and tap Add.

# How to turn on Content & Privacy restrictions for iPhone and iPad

- 1. Open **Settings**  $\rightarrow$  tap **Screen Time.**
- 2. Tap Content & Privacy Restrictions.
- 3. Toggle on **Content & Privacy Restrictions** → enter your Screen Time passcode if asked.

4. You may tap the **appropriate** options from the list and choose **Allow Changes** or **Don't Allow Changes**.

# How to prevent iTunes and App Store purchases with Screen Time

It's easy to accidentally buy apps or in-app content, especially for children. So, you can <u>turn</u> <u>off In-app purchases</u> and App Store downloads with Screen Time to avoid unexpected charges.

- 1. Open Settings and tap Screen Time.
- 2. Tap Content & Privacy Restrictions and enable if not already.

3. Tap iTunes & App Store Purchases.

4. Select Installing Apps and choose Don't Allow.

Communication limits let you choose whom the child can call during allowed Screen Time and Downtime. Check out our detailed guide to <u>set up and use communication limits in</u> <u>Screen Time</u>.

# How to enable child's Screen Time on iPhone and iPad

- 1. Open Settings on your child's iPhone.
- 2. Tap Screen Time  $\rightarrow$  Turn On Screen Time  $\rightarrow$  Continue  $\rightarrow$  This is My Child's iPhone.

You can **set Downtime**, App Limits, etc., now as well as later.

3. Next, create a Screen Time passcode (do not tell this to your child). *You are now inside Screen Time on your child's iPhone.* 

After you've set the child's iPhone, you can enable Downtime and set app limits, following the steps mentioned earlier.

If you use Family Sharing, you can also enable Screen Time for your child using the steps shown in the next tip.

# How to set up Screen Time for your child through Family Sharing

*Note*: You need to have Family Sharing enabled to set up Screen Time for family members for this. After that, you can see your child's screen time reports and set parental controls from your iPhone.

- 1. Open **Settings** on your iPhone.
- 2. Tap **your name** at the top.
- 3. Tap **Family Sharing** → **Screen Time.**

Next, tap a **family member's name**  $\rightarrow$  tap Turn on Screen Time  $\rightarrow$  **Continue**, and proceed with the onscreen instructions.

Alternatively, after you set Screen Time on your device, you see an option named Set Up Screen Time for Family inside it. Tap it and follow the instructions.

# How to turn off Screen Time on iPhone and iPad

- 1. Open **Settings** on your iPhone.
- 2. Tap Screen Time.

- 3. Tap **Turn Off Screen Time**  $\rightarrow$  enter your password if asked.
- 4. Choose Turn Off Screen Time again to confirm.

You can clear Screen Time usage data by turning off Screen Time. After that, you can reenable Screen Time if you wish to continue using it.

*Note*: This will remove all the existing customizations or settings you have set inside Screen Time.

This was all about how you can get started with and use Screen Time on iOS 15 or earlier. It is a great tool to <u>monitor your child's activity</u> and online well-being. What is your say about it? Share in the comments down below.
