

If you're reading this, you're probably an Apple user or fan or just interested in technology in general. Well, we're excited to share that you can now access all our content in the super handy iGeeksBlog iOS app.

A promotional graphic for the iGeeksBlog iOS app. The background is a vibrant yellow with a subtle pattern of white stars. In the top left corner, there is a black circle containing the white text 'iGB'. Below this, the text 'iGeeksBlog App' is written in a large, bold, black sans-serif font. In the bottom left corner, there is a black rectangular button with the white Apple logo and the text 'Download on the App Store'. Three iPhones are shown at an angle, displaying various articles from the app. The top iPhone shows a 'Trending Now' section with a 'SPLIT VIEW' article and a 'Latest' section with an article about 'How to split-screen on Mac: Your Guide to Multitasking'. The middle iPhone shows an article titled 'MacBook Pro Touch ID not working? How to fix it!'. The bottom iPhone shows an article titled '8 Best wired headphones for Apple Music lossless audio in 2023'.

Read fresh articles daily

You can enjoy all of our website content at your fingertips in the iGeeksBlog app. That includes:

- The most accurate and latest how-tos for iOS, iPadOS, macOS, watchOS, and more.
- Troubleshooting tips for iPhone, iPad, Mac, Apple Watch, AirPods, and more
- Detailed buying guides for all things Apple
- Unbiased reviews of countless accessories and apps
- Listic roundups of the best apps, games, and accessories
- Insightful editorials by our team of tech experts and Apple aficionados.

Secure Sign In with Apple

We care about your privacy just as much as Apple does. So you can securely and quickly sign in to the iGeeksBlog app for a personalized experience.

You will be prompted to sign in the first time you open the app.

You can choose to skip now and sign in later by tapping the **menu icon** at the top right and tapping **Sign In**.

Change your name and profile picture.

- Tap the **name** field and type in your preferred name.
- Tap the **camera icon** to change your profile picture.
- Next, click a new photo or upload one from your Photo library.

Sign out or delete your account

- To **sign out**, tap the **menu**, scroll down, and select **Sign Out**.
- To **delete** your account, tap **Delete Your Account** on the menu and hit **Delete** to

confirm.

Opt-in to get notifications

When you open the iGeeksBlog app for the first time, you will be asked if you want to allow notifications.

Of course, you can change your choice later too. Just tap the menu icon, and toggle on or off the **Receive Notifications** option.

We recommend turning on notifications to stay updated about the latest content we post.

Clean minimalist interface

You'll love the beautiful clutter-free interface that offers a superior reading experience.

- When you open the app, the **homepage** shows you the latest, freshest content. Tap an article to read.
- Next, **swipe** left or right to browse more articles. Or tap the **arrowhead** on the left to

return to the homepage.

At the screen's bottom, you can navigate to other sections of the app:

How-To

Tap How-To and then choose an operating system for which you want to see how-to articles. Or, tap **Guides** for comprehensive articles spanning all devices.

Buying Guide

Tap **Buying Guide** and select a device to see listicles of the best accessories and gadgets you can buy for it. Or, tap **Reviews** for our in-depth take on specific gadgets and

accessories.

Apps

Tap **Apps** and select a device to see the best apps and games spanning numerous categories. Or tap **Reviews** to read in-depth articles about our first-hand experience with some of the most popular apps.

Search

Tap this to search for something specific. Your most recent search results will automatically display on the screen.

Quick and accurate search

We know how frustrating it can be to keep scrolling until you find what you want. So our app comes with a powerful integrated search tool that can help you find the most relevant articles according to the keywords you enter.

Save and share articles

Want to bookmark articles to read or go back to later? Tap the heart icon to add them to your collection. Then, to view all your bookmarked articles, tap the menu and go to **Saved**.

Dark/Light mode

Whether you're a fan of light or dark mode or prefer the best of both worlds, it's super easy to switch between the two classic looks on the iGeeksBlog app. Just tap the menu and use the **toggle** to switch modes.

Custom font size

Comfort is of prime importance, so we offer varied text sizes from tiny to extra-large that

you can adjust anytime.

Just tap the menu and use the **slider** to select the font size you prefer.

Invite friends

If you enjoy our app as much as we hope you do, don't forget to invite your fellow iPhone users to check it out. Just tap the menu and select **Invite Friends**. Now, choose a way to send the invitation.

Connect with us

Connect with us on your favorite social media channels for more high-quality content about

everything Apple.

Just tap the menu and click any **social media icons** at the bottom to find our page. Don't forget to like, follow, subscribe, and comment!

You can also send us feedback directly from the app by tapping **Feedback** on the menu.

Lastly, tap **Rate App** to give us a rating on the App Store and share your thoughts with other iPhone users.

So, what are you waiting for? Download the iGeeksBlog app to experience it yourself, and let us know your thoughts about it! If you've got any questions, drop them in the comments below, and we'll be happy to get back to you.
