How does Magic Pin stack up?

Magic Pin boasts a clean UI, a seamless user experience, and all the tools needed to manage your pin collection. This app is a superb way to get in touch with other collectors and find that one pin you've been missing.

One thing holding Magic Pin back is a low user count. A diamond in the rough, this app provides a few prospecting collectors the app they're looking for.

Until its popularity grows, you may find it hard to find new pins on the marketplace. Direct messages are a potential remedy for this as collectors may be willing to trade pins they haven't listed on the market.

Pros

- Polished UI
- Easy to use
- Buy, sell, and trade availability (full toolkit)
- No hidden fees or charges

Cons

- Low user count
- Pin limit in the free user board

Price: Free trial period, then \$1.99 per month, \$19.99 per year, or \$99.99 for lifetime access.
